Description	The BYD Seal 6 DM-i Touring with 212 HP impresses as a top wagon, combining advanced technology with everyday practicality. Its efficient PHEV system allows up to 100 km of pure electric range (WLTP). The sleek design with clean lines and a large glass roof brings in plenty of light and adds a modern touch. Inside, the touchscreen offers great entertainment, complemented by heated and ventilated seats for maximum comfort. Safety features include a 360-degree surround view and advanced driver assistance systems. The Seal 6 DM-i Touring thus combines efficiency, comfort, and ample space for daily use and travel.
